Chemnitzer Concertina Survey

Dear fellow chemnitzer concertina musician:

ConcertinaMusic.com has created a database of chemnitzer concertina serial numbers, manufacture dates and other descriptive information. This database has been published to the Internet to help provide a historical record of the chemnitzer concertina. You may view our work in progress by visiting the following web address:

<http://www.ConcertinaMusic.com/sbox/data.html>

You will note that there is no personal information included that could identify past or current owners, or the current location of the musical instrument. All such personal information is held in confidence.

We would like to make the database as complete as possible by including as many instruments as we can identify. Please consider completing the attached survey and return by email, fax, or post mail at your earliest convenience so that we may include your chemnitzer concertina in our records.

We sincerely appreciate your time and effort to complete this survey.

With kindest regards,

Ken Yagelski

Chemnitzer Concertina Survey
